To select the proper load and inflation table, locate your tire size in the following pages, then match your tire’s sidewall markings to the table with the same sidewall markings. If your tire’s sidewall markings do not match any table listed, please contact your Michelin dealer for the applicable load and inflation table.

Industry load and inflation standards are in a constant state of change, and Michelin continually updates product information to reflect these changes. Printed material may not reflect the latest load and inflation standards.

**NOTE:** Never exceed the wheel manufacturer’s maximum air pressure limitation.

To select the proper load and inflation table, locate your tire size in the following pages, then match your tire’s sidewall markings to the table with the same sidewall markings. If your tire’s sidewall markings do not match any table listed, please contact your Michelin dealer for the applicable load and inflation table.

Industry load and inflation standards are in a constant state of change, and Michelin continually product information to reflect these changes. Printed material may not reflect the latest load and inflation standards.

**NOTE: Never exceed the wheel manufacturer’s maximum air pressure limitation.**

S = Single configuration, or 2 tires per axle.  
D = Dual configuration, or 4 tires per axle
